PROFESSIONAL SUMMARY

Computer Science graduate and full-stack developer with hands-on experience building applications using C#, .NET, PostgreSQL, React, and TypeScript. Experienced people leader bringing several years of management, problem-solving, collaboration, and ownership to a transition into professional software engineering.

PROJECTS

Dungeons & Dragons Campaign Manager | C# · .NET · ASP.NET Core · EF Core · PostgreSQL · React · Git

- Built a full-stack campaign management application with RESTful APIs, relational data modeling, cookie-based authentication, and per-account data-ownership enforcement.
- Implemented quest relationships and BFS cycle detection for progression rules, persistent graph positioning, command-palette global search, and an automated backend test suite with 200+ passing tests.

Notifetti — Birthday Reminder Application | React · TypeScript · Vite · Supabase · PostgreSQL · Git

- Developing a full-stack reminder application with authentication, protected routes, profile/settings management, and user-specific data access using PostgreSQL Row Level Security.
- Designed email/SMS contact preferences and an integration plan for Twilio-based notifications while iterating through Git-based development and testing.

PROFESSIONAL EXPERIENCE

Target — Westborough, MA

Aug 2026 – Present

General Merchandise Executive Team Leader

- Lead daily execution across high-volume General Merchandise operations, setting priorities, allocating labor, and resolving time-sensitive issues as business conditions change.
- Coach and develop team members while partnering across functions to communicate expectations, troubleshoot operational problems, and deliver against deadlines.
- Use performance metrics, observation, and root-cause problem solving to identify gaps, improve processes, and drive accountability for results.

Target — Marlborough, MA

Jun 2025 – Aug 2026

Food & Beverage Team Leader

- Led 12+ team members across a food operation generating approximately \$180K in weekly sales, balancing staffing, workload, inventory accuracy, freshness, and guest experience.

Target — Marlborough, MA

Jul 2023 – Jun 2025

Service & Engagement Team Leader

- Led front-end and digital fulfillment operations; maintained district-leading drive-up wait-time performance, served as a district trainer, and independently managed staffing, scheduling, and performance priorities.

TECHNICAL SKILLS

Languages: C#, TypeScript, JavaScript, Python, Java, C, C++

Frameworks & Backend: .NET, ASP.NET Core, Entity Framework Core, React, REST APIs

Data & Tools: PostgreSQL, Supabase, Git, GitHub, automated testing, CI/CD fundamentals

EDUCATION

University of Massachusetts Amherst | Amherst, MA

Bachelor of Science in Computer Science | GPA: 3.4/4.0 | Graduated January 2023
